

Don't let KLOVE radio go away!!!

Under the ruling 04-233, KLOVE radio, the BEST RADIO FOR FAMILIES, may not exist or exist with questionable advertising, etc. KLOVE is the ONLY radio station that I can safely let my entire family hear on a daily basis. Not to mention the lives that it saves. KLOVE literally saves lives every day, because of their broadcasting.

KLOVE has helped my family get through cancer, and other terrible circumstances and it is a CLEAN, WHOLESOME radio station.
Where else do find THAT anymore?

Please, FCC, please help this radio station to stay on the air with the broadcasting it now has. Your job is to keep America decent and this is one time everyone will be watching to see what you can do.

Please let me know what you will do with this situation.
